Mary and Her Little Lamb

Mary and her little lamb live on a great big farm. Mary loves her little lamb and keeps it safe from harm.

It follows her to school, but it waits out on the grass. There really isn't anything a lamb could do in class!

But Mary studies earnestly each day she is in school. Good citizens must be informed! She knows that's the rule.

She's learning what to eat and drink to keep her well and fit. She learns, too, what she must not drink—and alcohol is it!
