STATE GOVERNMENT MUST BE SENSITIVE TO THE NEEDS OF THE PEOPLE
I believe there ought to be someone in that state house who is a community person, a neighbor, someone who is accessible.

I believe the quality of life is affected by all the services people need, not just the Fire Department and the Police Department, but child care, health needs, housing assistance, education, consumer protection, recreation.

I believe in the preservation of neighborhoods and saving them from commercialism.

I believe we need a transportation agency that deals with many forms and possibilities of transportation; the problem is bigger than just adding concrete.

I AM NOT TIED TO ANY SPECIAL INTERESTS . . .
. . . except those of my constituency. I believe in representative government. I think the Georgia General Assembly needs a strong code of ethics and I will work vigorously for this.

I WON'T ASK FOR YOUR VOTE NOW AND FORGET YOU LATER
I believe in calling community meetings to share information and concerns so people can be informed and know what they need to do to insure adequate services for their community. I believe a state senator should be visible in the community and receptive to the concerns of the people who live there. I believe a public servant is a public servant.

WE MUST PAY MORE ATTENTION TO THE NEEDS OF OUR YOUNG PEOPLE
As the mother of a young child growing up in an urban area, my concerns include the young people she is growing up with. I believe something more can be done about the pressures on young people who grow up dealing with drugs, poverty, hunger. I believe in greater utilization of public buildings for community needs and I will work hard for this
