THE ATLANTA LEAGUE OF WOMEN SHOPPERS is a member of the national LEAGUE OF WOMEN SHOPPERS INC.

The object of the League is, through organization, to utilize the buying power of the community for the purpose of raising the general standards of merchandising methods for the benefit of the whole community.

To do this, the League proposes:

- To initiate and engage in activities relating to living costs.
- To advocate appropriate legislation for correcting unjust or antiquated conditions.
- To investigate labor disputes, seeking an adjustment if possible; and, failing in that, to make known the facts of the situation for the guidance of the public.
- To promote the use of the Union and Consumers Protection Labels as certificates that goods bearing them have been made under sanitary and humane conditions.

These objectives are of vital interest to the consumer because they tend

- To better the quality of goods sold;
- To eliminate the sweatshop;
- To raise the living standards of workers;
- To make the whole community a better place to live.

The ATLANTA LEAGUE OF WOMEN SHOPPERS has recently been organized, following the lead of similar successful organizations in New York, Washington, D.C., Newark, N. J. and elsewhere.

The League is seeking members.
Membership fee is $1.00 per year.

Further information will be gladly given by the undersigned.
